Office Action Summary	Application No. 10/632,561	Applicant(s) GARCIA ET AL.	
	Examiner Clark F. Dexter	Art Unit 3724	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on May 18, 2006 has been entered.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 35 and 36 are rejected under 35 U.S.C. 102(b) as being anticipated by Hsiung, pn 6,481,322.

Hsiung discloses a saw with every structural limitation of the claimed invention including

a support surface with an aperture (e.g., 14) extending therethrough for supporting a workpiece;

a beveling cutting device (e.g., 11, 12) adjustably extending through the support surface aperture, said cutting device for cutting a workpiece, the cutting device being disposed in a plane, whereby operation of the cutting device in the workpiece results in the formation of a kerf having a first and a second side in the workpiece;

a first optical emitting device (e.g., 3) adjustably coupled to the table saw to project a first optical indicator substantially aligned with the plane;

wherein the first optical emitting device is configured so as to bevel with the cutting device, such that said first optical indicator is projected to substantially indicate a cutting path of the cutting device along the workpiece;

[claim 36] wherein the first optical emitting device adjustably coupled to the table saw (e.g., see Fig. 1) to project a first optical indicator substantially aligned with the first side of the kerf.

Allowable Subject Matter

4. Claims 21-25 are allowable over the prior art of record.
5. Claims 37-41 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
